

# Systems Software Integrator (SSI)

The following is a brief overview to assist in navigating the SSI certification process.

Visit <https://nicet.useclarus.com/apply/application?id=98> to create or log into your account and begin your application.

## Personal Information

Required fields include first name, last name, and address.

**Name:** These fields must match the first and last name as shown on your government-issued ID, such as a driver's license, to be used at the testing center to validate your identity.

**Address:** A complete address is required. Only applicants living in the United States will be approved.

## Education Requirements

At a minimum, a high school diploma or equivalent is required.

Having a Bachelor's degree reduces the experience requirement, but must be validated by having your accredited college or university send official transcripts.

Transcripts should be sent to [ssi@nicet.org](mailto:ssi@nicet.org), or mailed to:

NICET  
attn: SSI transcripts  
1420 King Street  
Alexandria, VA 22314

## Work Experience

To enter work experience, click the **+Add** button.

Cumulative related work experience must add up to at least the required years – 3 years with a Bachelor's degree or 6 years without.

Each role, even if with the same employer, should be added as a separate entry.

Required fields include employer, dates, position, supervisor name and email, city, state, and employment level. If your employment level is part time, please enter the number of hours worked per week.

To add additional roles, click the **+Add** button again. When entering your Work Experience, begin with your current or most recent employer. The NICET basis for calculating an applicant's full-time employment is a work week of 40 hours, with 50 work weeks per year. In no case will extra experience credit be awarded for work over the prescribed 2000 hours per year.

## Work Description

Also required for each role you list, you must enter a description of how your work is related to each of the four key roles of a Systems Software Integrator as shown in the SSI Content Outline. The outline can be downloaded as a separate document at [www.nicet.org/nicetorg/assets/file/public/ssi\\_content\\_outline\\_2024.pdf](http://www.nicet.org/nicetorg/assets/file/public/ssi_content_outline_2024.pdf)

Each of the four roles should be addressed. Descriptions should be in your own words, should describe work you have executed, and should reflect specific tasks and duties. It would be valuable to include experience adhering to reference works listed in the SSI content outline.

**Go to the end of this document to find a blank worksheet  
plus a sample of a completed work experience form.**

## Attestation

As part of the application process, you will be asked to review and accept the NICET Conditions of Application, and abide by the NICET Code of Ethics.

Once you complete the application, and check the box to accept the attestation, you may proceed to checkout.

## Sample Work Experience

|                           |   |
|---------------------------|---|
| <b>Program Management</b> | <b>My program management skills include</b> [list integrator duties related to documentation, scheduling, costing, resource management, commissioning, versioning, and/or defining project specifications]. <b>In this work, I must adhere to</b> [list NIST, IEEE, or other standards that impact your work].  |
